A powerful self-healing technology from

Every century, a few revelations seem to revolutionize the way we live. The discovery of electricity, the creation of the automobile, the evolution of air travel and the birth of the internet are just a few examples. While these inventions may be commonplace today, their initial development was many times marked by doubt, controversy and denial.

There were large groups of people who simply said, "It cannot be done." Each time, a group of early adopters believed in the advance of technology and eventually the small number of early adopters led a mass of people to the new technology.

### What will the future hold for the great revelations of the 21st century?

We believe one of the greatest advances in spiritual technology for the 21st century is the AIM Program of Energetic Balancing. What may make the 21st century unique with regard to advances is that this century will couple technology advances with spirituality.

Stephen Lewis, Developer of the AIM Program

"The examples presented in Sanctuary and the AIM Program are based upon real people whose lives have been transformed by a radical new spiritual technology of energetic evaluation and balancing that promises to forever change the way we think about well-being and human potential."

Dr. Richard Gerber, MD

Vibrational Medicine: New choices for Healing Ourselves

"Miracles occur as they are required. Sooner would be pointless, later would be obsolete."

Stephen Lewis,

Co-Author of Sanctuary: The Path to Consciousness

## real people... creating real miracles

Michael [from Georgia] Depression runs in my family and I used to get depressed for seemingly no reason at all. Now, I don't get depressed about anything. AIM has been a life changing experience for me mentally, physically and spiritually.

### Susan & Kelsey [from California]

For almost 2 months, the veterinarian had not been able to get Kelsey's blood sugar down. After starting the AIM Program, my dog's diabetes was stabilized. I feel that in the near future, I will be able to decrease her insulin and that one day, with the self-healing through energetic balancing, she will no longer need any insulin.

Cheri [from California] I turned 70 in March, and I have not felt this good for many years. My health is better than it has been for many years, and I have energy now that I've not had for so long. The transformation has been amazing! Thank you!

## How AIM Energetic Balancing Works

Everything is energy; therefore, everything has a frequency. Imbalances have frequencies that can be brought into balance and neutralized by applying a balancing energy. The **AIM** Program is a spiritual process performed by making subtle-energy balancing frequencies available to a participant's photograph. Based on the holographic principle, your photograph acts as an energetic surrogate for your energy pattern.

The **AIM** Program of Energetic Balancing does not, and cannot heal you. Only YOU can heal YOU.

The ministry of EMC<sup>2</sup> and the **AIM** Program is not health care or medicine and it does not diagnose, treat, prevent or cure disease. The **AIM** Program is a TOOL that YOU can use to heal yourself.

As an **AIM** participant, you will have access to thousands of balancing frequencies 24 hours a day, 7 days a week.

Photographs are used to receive the energies.

## Cost of the AIM Program

There are several payment plans available to enroll in the **AIM** Program. The family plan allows up to 5 people (who are related) to enroll for \$2,000 a year. Individual plans are also available for \$1,000 a year or \$100 a month (paid in 10 monthly installments).

Over 40,000 people worldwide have used the **AIM** Program of Energetic Balancing to attain higher levels of emotional, physical and spiritual well-being.

For the first time my 5-year-old is sleeping through the night and many of her behavioral symptoms are gone. My children's skin has cleared up and they can finally eat ice cream and other foods all kids like. After seeing my children heal themselves with AIM, I hope more moms like me find EMC<sup>2</sup>.
